Hose Sets for Testing of Air Quality and Air Pressure - Lw13 and Lw19

We are pleased to introduce a special testing hose set to determine the air quality and actual pressure on site at customers' facilities.

This set is mainly intended for distributors, to be used during tool tests and presentations at customers' workplaces. The pressure gauge shows actual dynamic air pressure, just before it enters the tool. The set also is equipped with an external filter in order to see, how clean is the compressed air.

Model	Part Number
Hose Set – Air Connection Lw13	6022384A
Hose Set – Air Connection Lw19	6022384B

Lw13

Lw19
